// Experience

Software Engineer | Microsoft (Contract)

2/2020-Present
Bellevue, WA

- Submits bug fixes, implements new features, and ports code changes between SDK languages
- Promoted into position from Support due to work ethic, programming skill, attention to detail
- Implemented several solo projects with a high level of autonomy

Support Engineer 4 | Microsoft (Contract - originally 6 months)

1/2019-2/2020
Bellevue, WA

- 553 resolved issues. 45% more than the next highest on the team, who had 380
- Top 0.55% of StackOverflow rep growth in 2019, which grew 50% faster than next highest on team
- 56 Merged PRs and top PR Contributor (C#/Node) on Support, which was beyond scope of work

Marketing Manager | Regal Air

6/2016-10/2018
Everett, WA

- Developed and maintained both of the company's websites (JS/PHP/HTML/CSS)
- Wrote script to merge customer databases between unrelated, 3rd-party programs (Python)
- Increased web traffic >200% through SEO; more than 50 students on training wait list

All Source Intelligence Analyst | Army National Guard (Part-Time)

6/2009-12/2019
Marysville, WA

- Managed 4 soldiers for completion of battalion intelligence, security, and planning tasks
- Recipient of Army Commendation Medal and Military Outstanding Volunteer Service Medal
- Consistently recommended for promotion ahead of peers in annual reviews

// Projects

Portfolio and Blog | React, Node.js, Express, MongoDB, JavaScript

- Works in Chrome, Edge, IE, and is a mobile Progressive Web App
- Blog articles are stored in and retrieved from MongoDB
- Blog has a small, authenticated admin CMS for adding and editing posts and tags
- 100s on all Lighthouse Audits

Home Server | Linux, Docker, FreeBSD

- Integrates OPNsense firewall with proxy, reverse proxy, IDS/IDP, Letsencrypt
- Hosts portfolio, home automation software, Ubuntu VM, file server, docker containers

FUTpuppeteer | Python, Selenium, SQLite, 3rd-Party APIs

- Auto-clicking bot used to buy and sell players on EA's FIFA 18 Ultimate Team web app
- Numerous and extensive strategies and customization options
- Utilizes three unique 3rd-party APIs to gather market data and saves to database
